

Guiding Principles Adopted for How We Will Do Our Work

Staff and Board members developed guiding principles for the Foundation

Principle	Description
Commit to boldness	<ul style="list-style-type: none"> We are committed to becoming experts in and advocates for our community by entrenching and educating ourselves and others in understanding the health challenges people face. We will take risks to improve the health of Natrona citizens.
Center on community	<ul style="list-style-type: none"> We engage underserved communities and their voices directly in decision making. We prioritize and value the expertise of proximity to place and experience.
Be flexible and adaptive	<ul style="list-style-type: none"> We will offer flexibility to our staff and partners so that they can adapt as needed to address their needs and those of the community. We will adapt our approach based on new learnings and information.
Operate with transparency	<ul style="list-style-type: none"> The Foundation will act with integrity and in open communication with the community. We will do so through constructive outreach, inclusivity, and benefit to all of Natrona County.
Lean into systemic change	<ul style="list-style-type: none"> We will operate with a long-term view. We are committed to lasting, systemic improvements to the health and wellness of Natrona County residents.
Foster inclusivity and compassion	<ul style="list-style-type: none"> We will always be mindful of and guided by the importance of complete inclusivity of residents of all backgrounds. We will improve the ability to be heard.

Join Our Team!

We are hiring an Office and Communications Coordinator. The Coordinator provides administrative support to the executive team and the board and serves as a backup on key operational functions. The position coordinates the logistics related to events and meetings held at the foundation office. The position supports the implementation of the communications plan through the website, social media, and newsletters. The salary range for the position is \$46,000-52,000 plus a comprehensive benefits package.

Please note that the Wyoming Medical Center Foundation is a different legal entity from the hospital, but we are currently using the hospital's human resource functions through the end of the year. Interested applicants must apply through the hospital applicant portal.
